Notice for inviting Expression of Interest (EOI) for empanelment of Consultants for National Meat and Poultry Processing Board (NMPPB).

1. Background

The Government of India launched a National Meat and Poultry Processing Board (NMPPB) on 19th Feb 2009. The formation of National Meat & Poultry Processing Board has been notified in the Gazette of India Extraordinary vide notification no 127 dated 20th January, 2009. The National Meat & Poultry Processing Board has been registered on 26th March, 2009 under Societies Registration Act, 1860. The Board started functioning from the leased accommodation at 7/6, Association of Municipalities & Development Authority, Sirifort Institutional Area, August Kranti Marg, New Delhi.

The National Meat and Poultry Processing Board is an autonomous body and having 19 Members including CEO of the Board. This apex body is launched to work as a National hub for addressing all key issues related to Meat and Poultry processing sector for the systematic and proper development of this sector. The Board would serve as a single window service provider for producers/manufacturers and exporters of meat and meat products, for promoting & regulating the meat industry, as a whole and it would result in large number of employment opportunities. It would also help the rural farmers for increasing their income.

The Board will also help industry to utilize slaughterhouse waste materials, set up quality control laboratories for meat and meat products, promote meat manufacturers to adopt Good Manufacturing Practices (GMP), Hazard Analysis and Critical Control Points (HACCP) systems, ISO-9001: 2000 standards, help industry to create and disseminate data, train workers and technicians and work as a central and National hub to address meat-related issues.

Objectives of the Board

The mandate to set up a National Meat & Poultry Processing Board is to oversee the growth and further promotion of Meat and Poultry sector in the country. This has been considered necessary because of a felt need for a focused intervention in meat and poultry sector.

NMPPB will address issues related to production of hygienic, safe and wholesome meat and meat products, including:

- Lay down policies for healthy development of the meat and poultry sector
- Evolve standards of hygiene and quality
- Harmonization of domestic standards with international standards
- Address current environmental pollution issues
- Organize capacity building efforts
- Capacity-building to address human resource development issues

- Develop uniform and effective national meat quality testing systems and laboratories
- Provide help for setting up of training institutes to train workers, technicians, managers in meat and meat processing industries
- Provide thrust on research and development for production and marketing of innovative and new value-added meat products for domestic and international markets
- Serve as a 'one-stop' service for producers and manufacturers and exporters of meat and meat products
- To undertake market surveys and help the industries to create market intelligence, database and its dissemination on regular basis for improvement of the meat sector
- Promote meat manufacturers to adopt Good Manufacturing Practice (GMP), Hazard Analysis and Critical Control Points (HACCP) systems, ISO-9001: 2000 standards in meat production and processing
- Helping the industry in setting up/modernization of abattoirs by providing technical consultancy for production of hygienic meat and meat products and for utilization of slaughterhouse wastes to prepare animal by-products with value addition
- Promote and regulate the meat industry for increasing exports
- Help industry to establish sustainable and viable commercial projects

Need to establish NMPPB

- Meat and Livestock are the major source of income and employment to very large number of families in the urban and rural areas. These apart from providing nutrition being rich in protein, generates gainful employment in the rural sector as well as endow with raw material, by-products such as hides and skins, blood, bone, fat, etc for utilization. Thus, there is a strong need to explore this potential sector.
- The meat consumers are becoming more and more aware and demanding for meat and poultry products processed in clean and sanitary environment and “convenience items” such as semi cooked, ready-to-eat, ready-to-cooked meat food products. So this separate body will cater to these upcoming issues.
- Creating more awareness regarding utilization of animal waste materials for processing into by-products.
- Training the meat workers to observe sanitation and hygienic requirements while handling meat in slaughterhouses, processing plants and consumer/retail outlets.
- Need of strict laboratory testing of meat and meat products to ensure that they meet the food safety standards. Modernization of quality control laboratories is also required.
- A focused approach and intensive efforts are required to address the issues related to production of hygienic, safe and wholesome meat and meat products; harmonization of domestic and international standards and also to address the arising environmental issues.
